Welcome to the Math Salamanders 3rd Grade Halves and Quarters Sheets page. Here you will find a selection of free Math Worksheets which will help your child to learn to halve and quarter numbers up to 100. When you halve a number, you split it into 2 equal parts, or divide it by 2. When you quarter a number, you split it into 4 equal parts, or divide it by 4. You can also quarter a number by halving it twice. The worksheets in this section will help your child learn and practice halving and quartering numbers to 100. Using these sheets will help your child to: learn to quarter and halve numbers up to 100. Want to test yourself to see how well you have understood this skill?. Try our NEW quick quiz at the bottom of this page. To find half of 46, we need to divide 46 by 2. $46 \div 2 = 23$ We can also find half of 46 by finding half of 40 and half of 6 and then adding them together. So half of 46 = half of 40 + half of 6 = $20 + 3 = 23$ Example 2) Find half of 74 To find half of 74, we need to divide 74 by 2. $74 \div 2 = 37$ We can also find half of 74 by finding half of 70 and half of 4 and then adding them together. So half of 74 = half of 70 + half of 4 = $35 + 2 = 37$ Example 3) Find a quarter of 24 To find a quarter of 24, we need to divide 24 by 4, or halve it twice. $24 \div 4 = 6$ We can also find half of 24 by finding half of 24 and then halving this result. So half of 24 = 12 and half of 12 = 6. So $1/4$ of 24 = 6. Example 4) Find a quarter of 92 To find a quarter of 92, we need to divide 92 by 4, or halve it twice. $92 \div 4 = 23$ We can also find half of 92 by finding half of 92 and then halving this result. So half of 92 = 46 and half of 46 = 23. So $1/4$ of 92 = 23. Take a look at some more of our worksheets similar to these. Here you will find a range of free printable 3rd Grade Fraction Worksheets. Using these sheets will help your child to: understand what fractions are; relate fractions to everyday objects and quantities; place different fractions on a number line; shade in different fractions of a shapes; work out unit fractions of numbers. All the Third Grade Math Worksheets in this section follow the Elementary Math Benchmarks for Third Grade. If you need to practice your halving and doubling, then why not try out our NEW Online Halving and Doubling Online Practice Zone. You can select the numbers you want to practice with, and print out your results when you have finished. You can also use the practice zone for benchmarking your performance, or using it with a group of children to gauge progress. Doubling and Halving Practice Zone Our quizzes have been created using Google Forms. At the end of the quiz, you will get the chance to see your results by clicking 'See Score'. This will take you to a new webpage where your results will be shown. You can print a copy of your results from this page, either as a pdf or as a paper copy. For incorrect responses, we have added some helpful learning points to explain which answer was correct and why. We do not collect any personal data from our quizzes, except in the 'First Name' and 'Group/Class' fields which are both optional and only used for teachers to identify students within their educational setting. We also collect the results from the quizzes which we use to help us to develop our resources and give us insight into future resources to create. For more information on the information we collect, please take a look at our Privacy Policy We would be grateful for any feedback on our quizzes, please let us know using our Contact Us link, or use the Facebook Comments form at the bottom of the page. The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page.
